Deployment Details

Database Migration

Must be run all migrations up through 2.8.5 have been executed. At least for the first startup `auto.ddl=true` must be set to insure any hibernate schema changes are propagated to the database.

For mysql CLOG users run the following:

```
CREATE TABLE CLOG_GLOBAL_PREFERENCES (USER_ID VARCHAR(36) NOT NULL,SHOW_BODY TINYINT(1) NOT NULL DEFAULT '1',PRIMARY KEY(USER_ID))
```

GENERAL CHANGES TO LOCAL.PROPERTIES

The following changes must be made to `local.properties` to ensure complete and correct functionality.

RELEASE VERSION

Alter local.properties to reflect current release of Sakai CLE:

```
version.service=2.8.7
```

FEATURE-SPECIFIC CHANGES TO LOCAL.PROPERTIES

EVALUATION SYSTEM

Group Title Configuration that includes Instructor information (CLE-10095)

By default the instructor Eid will be embedded in the title. Optionally you can show a user property using the following config:

```
useInstructorUserPropertyInTitle@org.sakaiproject.evaluation.providers.EvalGroupsProvider=true
```

```
instructorUserPropertyName@org.sakaiproject.evaluation.providers.EvalGroupsProvider=emplId
```

COURSE MANAGEMENT

By default terms are added to section eids in CM, a new property has been created (default is true so existing implementations will not be affected) to tu

Issues Resolved
